SUMMARY

Third-year Computer Science undergraduate and AWS Certified AI Practitioner building full-stack applications, retrieval-augmented generation (RAG) pipelines, and cloud-deployed systems. Hands-on experience with Python, REST APIs, PostgreSQL, AWS, and Docker. Seeking software engineering internships focused on GenAI, and cloud.

EDUCATION

B.Tech in Computer Science Engineering | Bennett University

Aug 2024 – May 2028

3rd Year, 5th Semester | Cloud Computing Course Grade: 9 / 10

EXPERIENCE

Data Analyst Intern (Automation & Analytics) | Lysandra Group

Jun 2026 – Aug 2026

- Engineer automated Python/pandas data pipelines, reducing multi-hour cleaning tasks to minutes; process and query business datasets of 50,000+ rows weekly.
- Architect 5+ SQL-backed dashboards for sales and operations KPIs, cutting manual reporting effort by approximately 40% and saving about 6 hours weekly; ship reusable reporting tools for 3 cross-functional teams.

Management Head | Alt Reality Club, Bennett University

Aug 2024 – May 2025

- Led a 12-person team to deliver 8+ technical events and workshops; grew membership 35% to 150+ students.

PROJECTS

VeriPolicy: AI Policy Intelligence Platform [Code](#) [Live](#)

React, TypeScript, PostgreSQL, Supabase, RAG, Llama 3.3, Vercel | Jul 2026

- Built and deployed a full-stack platform indexing 2M+ records across 47 jurisdictions to generate source-referenced policy briefs in under 2 seconds.
- Designed normalized PostgreSQL schemas with row-level security (RLS) for multi-tenant isolation; implemented vector search and a Llama 3.3-70B RAG pipeline grounded in SIPRI and OWID data.
- Integrated live NewsData ingestion and deployed on Vercel with environment-based secrets management.

OpenEnv Code Review Agent [Code](#) [Live](#)

Python, FastAPI, Docker, Reinforcement Learning, Meta PyTorch OpenEnv | Mar-Apr 2026 (Meta PyTorch OpenEnv Hackathon x SST)

- Designed a three-tier code-review benchmark for bugs, logic errors, and SQL injection with partial-credit reward shaping; evaluated a Llama 3.3-70B baseline agent that scored 93.3%.
- Containerized the environment with Docker and exposed /reset, /step, and /state REST endpoints through FastAPI for agent integration; developed for the Meta PyTorch OpenEnv Hackathon x SST.

Air Sentinel AI: Air Quality Monitor [Code](#)

React, Python, scikit-learn, MongoDB, REST APIs | Dec 2025

- Built an AQI ingestion, regression, and live-dashboard system using 2+ years of historical data, inference every 5 minutes, and indexed MongoDB storage for 10,000+ time-series records.

TECHNICAL SKILLS

Cloud & DevOps: AWS (EC2, S3, IAM, Lambda), Docker, Git/GitHub, Vercel, CI/CD

GenAI & ML: Machine Learning, Agentic AI, RAG, LangChain, LangGraph, Model Context Protocol (MCP), Large Language Models (LLMs), Amazon Bedrock, Amazon SageMaker, Oracle Cloud Infrastructure (OCI), pandas, scikit-learn

Languages: Python, C++, Java, JavaScript (ES6+), SQL

Backend & Frontend: FastAPI, Node.js, Express.js, REST APIs, JWT, React.js, Tailwind CSS | **Databases:** PostgreSQL, MySQL, MongoDB, Supabase

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, SDLC

ACHIEVEMENTS & CERTIFICATIONS

- AWS Certified AI Practitioner: Amazon Web Services (AIF-C01) • [Verify on Credly](#)
- Oracle Agentic AI Certified Foundations Associate • [Verify on Oracle CertView](#)
- Smart India Hackathon: qualified for and competed in the national rounds in 2024 and 2025.
- AWS Academy Graduate: Cloud Foundations; Cloud Security Foundations
- Anthropic AI Fluency: Framework and Foundations • Machine Learning Capstone (Coursera)
- Career Essentials in Generative AI by Microsoft and LinkedIn (LinkedIn Learning) • [Verify on LinkedIn](#)
